

Contents

Chapter 1 Overview of Strategic Cost Management

Cost Management	1
Meaning, Phases, Benefits, Steps, Techniques	
Costing of Product Characteristics or Attributes	3
Strategic Cost Management (SCM)	4
Meaning, Components	
Role of Management Accountant in SCM	4
Strategic Total Cost Management	5
Strategic Cost Analysis	5
Cost Leadership Strategy	6
Cost Control and Cost Reduction : Meaning	7
Cost Control System	7
Cost Reduction System	8
Types of Cost Management Programs	8
Crash Programs, Planned Programs, Long-range Programs, Short-range Programs	
Cost Control and Cost Reduction : Distinction	9
Precautions in Cost Management Programs	10
Value Engineering (VE)	10
Value of a Product, Meaning of VE, Steps in VE, Advantages, Impact on Profit	
Phases of Value Engineering Job Plan	12
Value Analysis	12
Meaning, Methodology, Cost Reduction, Benefits, Value Analysis and Value Engineering: Distinction, Scope for Cost Reduction at Product Design Stage	
Operations Research (OR) In Cost Reduction	14
Meaning of OR, OR Techniques, Areas of Application	
Business Process Reengineering (BPR)	14
Meaning, Steps, Pitfalls	
Reverse Engineering	15
Cause-Effect Diagram	16
Meaning, Applications, When to Use	
Failure Mode and Effects Analysis (FMEA)	17
Meaning, When to Use	
Function Analysis System Technique (FAST)	17
Simo-Chart	18
Types of Process Charts, Steps for Drawing Flow Diagram, Construction of Simo-Chart, Steps for Construction of Simo-Chart, Improving Present Method	
String Diagram	19
Flexible Manufacturing Systems	20
Meaning, Benefits	
Parametric Cost Control	20
Meaning and Techniques used	
Lot Sizing	20

Operations Management 20

Operations Strategy 21

Meaning, Strategy Decisions, Characteristics

Control System 21

System, Control System, Kinds of Control Systems, Basic Elements of Control System, Problems in Designing Control System

Management Control System (MCS) 23

Definition and Meaning of MCS, Characteristics of a Sound MCS, Steps in MCS

Feed Back Control System 24

Basic Components and Basic Principles

Strategic Control 25

Meaning, Management Control and Operational Control : Distinction

Theory Questions 26

Chapter 2 **Cost Concepts for Decision Making**

Cost, Expense and Loss: Meaning 28

Cost, Expense, Loss

Cost Classification 28

Meaning of Cost Classification, Categories of Cost

Classification of Costs for Decision-Making 29

Marginal Cost, Differential Cost, Opportunity Cost, Relevant Cost, Sunk Cost, Replacement Cost, Normal Cost, Abnormal Cost, Avoidable Cost, Unavoidable Cost, Pre-production Cost, Product Cost, Period Cost, Traceable Cost, Common Cost, Controllable Cost, Uncontrollable Cost, Short-run Cost, Long-run Cost, Past Cost, Future Cost, Explicit Cost, Implicit Cost, Book Cost, Shutdown Cost, Abandonment Cost, Urgent Cost, Postponable Cost, Conversion Cost, Capitalized Cost

Classification of Costs Based on Variability 32

Variable Cost, Fixed Cost, Semi-variable Cost or Semi-fixed Cost

Other Categories of Cost 33

Stepped up Costs, Specific and Common Fixed Costs, Committed Fixed Cost, Discretionary Fixed Cost, Engineered Cost, Managed Cost, Capacity Cost, Programed Cost

Levels of Variability of Costs 34

Importance of Behaviourwise Cost Classification 34

Methods of Splitting Semi-variable Costs 34

Industrial Engineering Method, Account Inspection Method, Scatter Graph Method, High and Low Method, Regression Analysis

Theory Questions 39

Practical Problems 40

Chapter 3 **Incremental, Relevant and Opportunity Cost Concepts**

Incremental Costing 43

Incremental Cost and Incremental Costing : Meaning, Characteristics of Incremental Costing, Decisions Using Incremental Costing, Uses of Incremental Cost Analysis, Marginal Costing and Differential Costing : Distinction, Determination of Cost Indifference Point

Relevant Costing 48

Meaning of Relevant Costing, Features of Relevant Costs, Examples of Relevant Costs, Analysis of Relevant Costs With other Cost Concepts

Opportunity Costing 51

Meaning of Opportunity Costing

Theory Questions 52

Practical Problems 53

Chapter 4 **Activity Based Cost System**

Reasons for Emergence of ABC System 66

Activity Based Costing (ABC) : Meaning and Objectives 67

Meaning of ABC, Activity Based Cost System, Objectives of ABC

Steps in ABC System 68

Activity : Meaning and Categories 71

Meaning of Activity, Categories of Activity, Value Added and Non-value Added Activities : Distinction

Cost Pools, Cost Drivers and Cost Objects 72

Cost Pools, Cost Drivers, Cost Object

Important Cost Pools and its Cost Drivers 72

Advantages and Limitations of ABC System 76

Advantages, Limitations

ABC System and Strategic Decision-Making 77

New Concepts in ABC 78

Activity Based Budgeting, Activity Based Management, Activity Based Accounting

Customer Costing 78

Meaning, Categories of Costs

Customer Profitability Analysis 79

Theory Questions 79

Practical Problems 81

Chapter 5 **Target Costing**

Target Costing Concept 94

Introduction, Meaning, Basic Premises, Common Procedure, Major Components, Possibilities

Steps in Target Costing Approach 96

Benefits of Target Costing 96

Target Costing Methodology 97

Methods of Establishment of Target Cost 99

Subtraction Method, Addition Method, Integrated Method

Role of Management Accountant in Target Costing 100

Target Cost Management 100

Meaning, Features

Ascertainment of Total Target Cost 101

Cost Tables 101

Attributable Costing 101

Theory Questions 101

Practical Problems 102

Chapter 6 **Backflush Accounting and Resource Consumption Accounting**

Backflush Accounting 111

Traditional Cost System, Just In Time Cost System, Backflush Accounting System, Backflush Accounting : Benefits and Problems, Variants of Backflush Accounting, Inventory Valuation in Backflush Accounting

Resource Consumption Accounting (RCA) 115

Definition and Meaning of RCA, Methodology in Implementation of RCA, Advantages of RCA, Difficulties in Implementation of RCA

Theory Questions 117

Practical Problems 117

Chapter 7 Throughput Accounting

Throughput Accounting (TA) : Meaning 120

Concepts in Throughput Accounting 120

Product Costing and Throughput Accounting : Distinction 121

Bottlenecks and Overhead Attribution 121

Problems of Throughput Accounting 122

Theory Questions 123

Practical Problems 123

Chapter 8 Breakeven and Volume-Cost-Profit Analysis

Breakeven (BE) Analysis : Meaning and Assumptions 129

Meaning of BE Analysis, Assumptions and Limitations of BE Analysis

Formulas used in Breakeven Analysis and Marginal Costing Chapters 130

Cash Breakeven and Indifference Analysis 132

Cash Breakeven, Indifference Point

Profit/Volume Ratio 132

Meaning, Improvement Measures, Limitations, Construction of PV Chart, PV Chart in Multiproduct Situations

Margin of Safety (MOS) 133

Meaning, Formulas, Improvement Measures

Angle of Incidence (AOI) 134

Relationship Among BEP, MOS and AOI 134

Impact of Selling Price, Fixed Cost and Variable Cost on BEP 135

Cost-Volume-Profit (CVP) Analysis 135

Meaning, Assumptions, Procedure in CVP Analysis, Benefits of CVP Analysis

Curvilinear Breakeven Analysis 136

Theory Questions 137

Practical Problems 138

Chapter 9 Application of Marginal Costing Technique

Absorption Costing 157

Meaning, Advantages, Limitations

Marginal Cost and Marginal Costing : Meaning 158

Contribution 158

Meaning of Contribution, Contribution and Profit : Distinction

Features of Marginal Costing 158

Marginal Costing : Advantages and Limitations 159

Absorption Costing and Marginal Costing : Distinction 160

Absorption Costing and Marginal Costing : Impact on Profit 160

Hypothetical Statements of Cost and Profit	161
Absorption Costing and Marginal Costing : Best Choice	162
Impact of Inflation on Holding of Large Inventories	162
Practical Applications of Marginal Costing	162
Key or Limiting Factor Analysis	163
Meaning, Examples, Analysis	
Profit Planning	163
Meaning, Possible Ways	
Selection of Suitable Product/Sales Mix	164
Make or Buy Decisions	164
Need for Buy, Situations	
Introduction of a New Product and Diversification Decisions	164
Alternative use of Production Facilities	164
Maintaining Desired Level of Profit	165
Discontinuance of a Product	165
Purpose, Important Points, Guiding Principles	
Accept Special Offer Below Domestic Price, Submission of A Tender	165
Market Expansion and Contraction	165
Fixation of Selling Price	166
Fixation of Selling Price below Variable Cost	166
Temporary Shutdown of Operations	167
Reasons for Shutdown, Examples of Shutdown Costs, Application of Technique, Shutdown Point	
Marginal Costing and Differential Costing : Distinction	167
Theory Questions	168
Practical Problems	169

Chapter 10 Cost Control Through Standard Costing

Historical Costing	208
Meaning, Limitations, Emergence of Standard Costing	
Standard Cost and Standard Costing	209
Standard, Standard Cost, Standard Costing, Suitability, Features, Objectives	
Types of Standards	210
Current Standard, Ideal Standard, Expected Standard, Basic Standard, Normal Standard	
Setting of Standards	211
Production Standards, Cost Standards, Precautions, Considerations, Persons Involved	
Standard Cost for Direct Material	212
Quantity of Materials, Price of Materials	
Standard Cost for Direct Labour	212
Standard Labour Time, Labour Rate Standard	
Standard Costs for Overheads	212
Standard Hour	213
Important Terminology in Standard Costing	213
Prerequisites for Establishing Standard Cost System	214
Standard Cost and Estimated Cost : Distinction	215
Setting of Standards During Inflation	215
Responsibility for Setting Standards	216

Standard Costing and Budgetary Control : Distinction	216
Standard Costing and Budgetary Control : Interrelation	217
Problems in Setting Standards	217
Advantages and Limitations of Standard Costing System	217
Reasons for Growing Importance of Overheads	218
Non-compatibility of Standard Costing with Activity Based Costing	219
Behavioural Considerations in Standard Costing	219
Meaning of Variance Analysis	219
Variance, Variance Accounting, Variance Analysis, Methodology, Causes of Variance, Classification of Variances, Interpretation of Variances, Adverse/Favourable	
Controllable and Uncontrollable Variances	221
Direct Material Variances	221
Direct Material Cost Variance, Direct Material Price Variance, Direct Material Usage Variance, Direct Material Mix Variance, Direct Material Yield Variance	
Direct Labour Variances	225
Direct Labour Cost Variance, Direct Labour Rate Variance, Direct Labour Efficiency Variance, Direct Labour Mix Variance, Direct Labour Yield Variance, Direct Labour Idle Time Variance, Direct Labour Net Efficiency Variance	
Variable Production Overhead Variances	229
Variable Overhead Cost Variance, Variable Overhead Expenditure Variance, Variable Overhead Efficiency Variance	
Fixed Production Overhead Variances	231
Fixed Overhead Cost Variance, Fixed Overhead Expenditure Variance, Fixed Overhead Volume Variance, Fixed Overhead Capacity Variance, Fixed Overhead Efficiency Variance, Fixed Overhead Calendar Variance, Fixed Overhead Revised Capacity Variance.	
Sales Value or Turnover Variances	235
Sales Value Variance, Sales Value Price Variance, Sales Value Volume Variance, Sales Value Mix Variance, Sales Value Quantity Variance	
Sales Margin or Profit Variances	237
Sales Margin Variance, Sales Margin Price Variance, Sales Margin Volume Variance, Sales Margin Mix Variance, Sales Margin Quantity Variance	
Market Size and Market Share Variances	239
Accounting Procedure for Standard Cost	240
Partial Plan, Single Plan, Dual Plan	
Accounting Procedure Under Single Plan	240
Accounting Procedure, Examples, Journal Entries	
Partial Plan and Single Plan : Comparison	241
Methods of Disposal of Variances	241
Revision of Standards and Revision of Variance	242
Interdependence Between Variances	242
Planning and Operational Variances	243
Investigation and Control of Variances	243
Techniques of Investigation of Variances	243
Heuristics, Trend Analysis, Statistical Control Charts, Decision Theory Approach (Game Theory), Decision Tree Approach	
Theory Questions	245
Practical Problems	245

Chapter 11 **Cost Management with Setting Budgets**

Budget	282
Meaning, Features	
Budgetary Control	283
Meaning, Features and Objectives	
Prerequisites for Sound Budgetary Control System	283
Forecast and Budget : Distinction	284
Budgeting : Advantages and Disadvantages	284
Steps in Budgeting Process	285
Principal Budget Factor	286
Budget Centre	286
Budget Period	286
Meaning, Length of Budget Period, Distinction from Control Period	
Budget Committee	287
Meaning, Functions	
Budget Controller	287
Meaning, Functions	
Budget Manual	287
Meaning, Contents	
Classification of Budgets	288
Based on Coverage, Based on Capacity, Based on Conditions, Based on Time, Other Classification	
Kinds of Budget	289
Sales Budget	289
Meaning, Factors Influencing	
Production Budget	290
Meaning, Factors Influencing	
Plant Utilization Budget	291
Direct Materials Usage Budget	291
Direct Materials Purchase Budget	292
Direct Labour Cost Budget	292
Manufacturing Overhead Budget	293
Administration Overhead Budget	294
Cost of Production, Ending Inventory and Cost of Goods Sold Budgets	294
Selling and Distribution Overhead Budget	295
Research and Development Expenses Budgets	296
Capital Expenditure Budget	296
Master Budget	296
Analysis of Cost Variances	296
Conventional Approach, Important Considerations, Limitations	
Budgetary Control Ratios	297
Efficiency Ratio, Activity Ratio, Capacity Ratio, Calendar Ratio	
Dangers of Single Budget System	297
Behavioural Aspects of Budgeting	298
Fixed Budget	298

Suitability, Merits, Demerits

Flexible Budget 299

Meaning, Assumptions, Steps, Suitability, Format of Flexible Budget, Fixed Budget and Flexible Budget : Distinction, Merits, Demerits

Zero Base Budgeting (ZBB) 301

Meaning, Features, Traditional Budgeting and Zero Based Budgeting (ZBB) : Distinction, Requisites for Implementation of ZBB, Merits, Demerits

Rolling Budget 303

Meaning, Merits, Demerits

Planning and Control Budgets 303

Meaning, Planning Budget and Control Budget : Distinction

Critical Planning Variables 304

Meaning, Components

Responsibility Budgeting 304

Program Budgeting 304

Meaning, Program Budgeting and Conventional Budgeting : Distinction, Advantages, Disadvantages

Performance Budgeting 305

Meaning, Prime Concepts, Prerequisites, Purposes, Performance Budgeting and Traditional Budgeting : Distinction, Performance Budgeting and Program Budgeting : Distinction

Cash Budget 306

Meaning, Format of Cash Budget, Objectives, Points to be Considered in Preparation of Cash Budget, Cash Flow Statement and Cash Flow Budget : Distinction, Cash Budget and Profit and Loss Account : Distinction, Methods of Cash Budgeting

Theory Questions 309

Practical Problems 311

Chapter 12 **Product Pricing : Methods and Strategies**

Product Pricing : Objectives and Steps 338

Objectives of Product Pricing, Steps in Product Pricing Process

Factors Influencing Product Pricing Policy 339

Impact of Market and Cost on Product Pricing 340

Important Factors in Product Pricing, Impact of Market on Pricing, Impact of Cost on Pricing

Pitfalls and Limiting Factors in Product Pricing 341

Management Accountant's Role in Price Fixation 341

Cost Plus Pricing Method 342

Meaning, Arguments in Favour of, Arguments Against

Marginal Cost Pricing Method 344

Meaning, Suitability, Arguments in Favour of, Arguments Against, Fixation of Price Below Variable Cost : Situations

Target Rate of Return Pricing Method 345

Meaning, Demerits

Added Value Pricing Method 346

Incremental Cost Pricing Method 348

Standard Cost Pricing Method 349

Opportunity Cost Pricing Method 350

Administered Pricing Method 350

Meaning, Objectives, Demerits

Customary Pricing Method 351

Going Rate Pricing Method	<i>351</i>
Sealed Bid Pricing Method	<i>351</i>
Skimming Pricing Strategy	<i>352</i>
Meaning, Suitability	
Penetration Pricing Strategy	<i>352</i>
Meaning, Suitability	
Price Discrimination	<i>353</i>
Meaning, Situations, Dangers, Possibilities	
Loss Leader Pricing	<i>354</i>
Pricing Under Inflation	<i>354</i>
Market Situation, Pricing Strategy	
Pricing During Recession	<i>355</i>
Pricing Strategy for Established Products	<i>355</i>
Market Situation, Market Strategy	
Pricing by Service Sector	<i>355</i>
Target Pricing	<i>355</i>
Price Cutting	<i>356</i>
Meaning, Conditions for Success, Suitability	
Product Life-cycle in Pricing Established Products	<i>356</i>
Pricing Strategies at Decline Phase	<i>357</i>
Symptoms of Competitive Degeneration	<i>357</i>
Symptoms, Reasons for Erosion of Distinctiveness	
Experience Curve in Product Pricing	<i>357</i>
Theory Questions	<i>358</i>
Practical Problems	<i>358</i>

Chapter 13 Responsibility Accounting and Divisional Profitability

Responsibility Accounting : Meaning and Basic Principles	<i>381</i>
Meaning, Basic Principles, Difficulties in Introducing Responsibility Accounting	
Benefits and Limitations of Responsibility Accounting	<i>382</i>
Requirements for Setting up of Responsibility Accounting	<i>382</i>
Responsibility Report	<i>383</i>
Specimen Responsibility Report, Important Points in Preparation of Responsibility Report	
Cost Centre	<i>384</i>
Meaning, Examples, Types of Cost Centre	
Profit Centre	<i>384</i>
Meaning, Suitability, Advantages, Limitations, Profit Centre and Budget Centre : Distinction, Profit Centre's Performance Report	
Investment Centre	<i>386</i>
Extent of Manager's Control Over Responsibility Centre	<i>386</i>
Revenue Centre	<i>386</i>
Divisional Income Statement	<i>387</i>
Divisional Profitability : ROCE Method	<i>388</i>
Meaning, How to Compute ROCE? Benefits, Limitations	
Divisional Profitability : Residual Income Method	<i>390</i>
Meaning, Advantages, Disadvantages, Residual Income Statement, ROCE and RI Methods : Distinction, ROCE and RI Methods : Criticism	

Theory Questions 393

Practical Problems 394

Chapter 14 Interdivisional Transfer Pricing

Transfer Pricing System 408

Meaning, Objectives, Criteria for Transfer Pricing System, Requisites of Sound Transfer Pricing System, Benefits of Transfer Pricing Policy

Cost Based Transfer Pricing 410

Actual Cost of Production, Marginal Cost of Production, Full Cost, Full Cost Plus, Standard Cost, Standard Cost plus Lump Sum, Advantages, Limitations

Market Based Transfer Pricing 410

Meaning, Difficulties in Identification of Market Price, Advantages, Limitations

Negotiated Transfer Pricing 411

Meaning, Principles, Limitations

Opportunity Cost Transfer Pricing 412

Meaning, Determination, Limitations

Dual Transfer Pricing 413

Transfer Pricing when Unit Variable Cost and Selling Price are not Constant 413

Fixation of Transfer Price by Prorating Overall Contribution 413

Transfer Pricing : A General Rule 414

General Conflicts in Fixation of Transfer Prices 414

Proposals for Resolving Transfer Pricing Conflicts 414

International Transfer Pricing 415

Meaning, Aspects of International Transfer Pricing, Objectives for International Transfer Pricing

Theory Questions 416

Practical Problems 417

Chapter 15 Management of Marketing and Distribution Cost

Marketing and Marketing Cost : Meaning 437

Reasons for Inaccuracy of Marketing Cost 438

Marketing Cost Analysis 438

Meaning, Benefits, Approaches

Production Cost and Marketing Cost : Distinction 438

Difficulties in Marketing Cost Analysis 439

Distribution Function 440

Meaning, Activities, Costs

Distribution Cost Analysis 440

Ratios used in Marketing and Distribution Cost Analysis 441

Ratios for Advertising and Market Share 442

Market Segmentation 442

Meaning, Basic Variables, Policy Options, Advantages, Segmental Contribution Statement

Physical Distribution Management (PDM) 444

Determination of Level of Service 445

Channel Decisions 445

Warehouse Decisions 445

Transport Decisions	446
Cost of Granting Credit	447
Cost of a Salesman	447
Evaluation of Salesman's Performance	448
Setting an Advertisement Budget	448
Methods of Setting Advertisement Budget	
Cost Benefit Analysis of Advertising	449
Depot Numbers and Depot Location Decisions	450
Distribution Requirement Planning (DRP)	450
Maintenance of Safety Stock	450
Theory Questions	451

Chapter 16 **Productivity Management**

Meaning of Productivity	452
Measurement of Productivity	452
Misconceptions in Measuring Productivity	453
Ratios in Measuring Productivity	453
Productivity Index and Total Productivity Index	454
Productivity of Materials	454
Productivity of Labour	454
Meaning, Factors Influencing Labour Productivity, Measuring of Labour Productivity	
Productivity of Capital	455
Productivity of Other Factors	455
Productivity of Management Resources	456
Productivity and Profitability : Distinction	456
Productivity and Value Added	456
Productivity and Quality	457
Productivity and Cost Effectiveness	457
Higher Productivity and Reduced Cost	457
Importance of Human Factor in Productive Drive	457
Productivity Objectives	457
Productivity Plan	458
Productivity Audit	458
Advantages of Higher Productivity	458
Causes of Low Productivity	459
Criticism on Productivity Concept	460
Total Productivity Management (TPM)	460
Performance Management	460
Meaning, Techniques	
Performance Measurement Reports	461
To Sales Manager, To Works Manager	
Theory Questions	461

Chapter 17 Capacity Management

Capacity : Meaning and Examples	463
Levels of Capacity	463
Maximum Capacity, Practical Capacity, Normal Capacity, Capacity Based on Sales Expectancy, Actual Capacity Utilization, Idle Capacity, Excess Capacity	
Normal Operating Capacity	465
Capacity Determination	465
Reliability Curve	465
Capacity Utilization	466
Idle Capacity Costs	466
Computation, Treatment	
Peak Capacity and Effective Capacity	466
Need for Capacity Management	467
Capacity Planning	467
Long-term and Short-term Capacity Planning	468
Capacity Planning Techniques	468
Economies of Scale	469
Government Policy and Capacity Decisions	469
Relevant Range of Activity	470
Rectification of Imbalance of Production Facilities	470
Demand Stimulating Options	470
Adjustment of Capacity to Match Current Demand	471
Aggregate Planning	471
Meaning, Prerequisites, Trail and Error Process for Aggregate Planning	
Aggregate Planning Strategies	472
Level Strategy, Chase Strategy	
Management Coefficient Model	472
Buffer Management	472
VAT Analysis	472
Theory Questions	473
Practical Problems	473

Chapter 18 Employee Training, Relocation and Cost of Strike

Employee Training	475
Need for Employee Training, Training Cost Evaluation, Difficulties in Evaluation, Benefits of Evaluation	
Relocation of Factory and Employees	477
Labour Strike	481
Wage Incentive Schemes	484
Meaning, Objectives, Advantages, Limitations	
Theory Questions	487
Practical Problems	488

Chapter 19 Pareto Analysis and Theory of Constraints

Pareto Analysis 510

Meaning, Usefulness, Practical Applications of Pareto Analysis

Theory of Constraints (TOC) 511

Meaning of TOC, Steps to Deal with Constraints, Key Measures of TOC, Methodology in Implementation of TOC, TOC and Cost Accounting Procedures

Theory Questions 513

Practical Problems 513

Chapter 20 Just In Time and Lean Manufacturing

Just In Time (JIT) Or Lean Manufacturing System 515

Steps in JIT/Lean Manufacturing 515

Basic Steps for Implementation of JIT/Lean Production 516

Features of JIT 516

Methodology in Implementation of JIT 517

Merits and Demerits of JIT 519

Role of JIT in Elimination of Waste 520

JIT and Impact on Profitability 520

JIT and Competitive Advantage 521

JIT and Overhead Costs 521

Synchronous Manufacturing 521

Implementation of PRAISE : Remedies 521

Theory Questions 522

Practical Problems 522

Chapter 21 Quality Management : Systems and Techniques

Need for Quality Consciousness 524

Meaning of Quality 525

Factors considered in Quality 525

Classification of Quality Costs 525

Prevention Costs, Appraisal Costs, Costs of Internal Failure, Costs of External Failure, Costs of Exceeding Requirements, Costs of Lost Opportunity

Optimization of Quality Costs 526

Quality Cost Reporting 527

Analysis of Quality Costs 528

Quality Costs : Comparison with an Iceberg 529

Impact of Quality on Cost, Price, Profit and Market Share 529

Important Terms in Quality Management 530

Quality Control, Quality Assurance, Total Quality Control, Statistical Quality Control, Statistical Process Control, Quality Audit

Total Quality Management (TQM) 530

Meaning, Basic Principles, Key Features, Six Cs of TQM, Steps in Implementation of TQM, Critical Success factors of TQM, Benefits of TQM

Zero Defect Programs or Right First Time 532

Meaning, Features, Basic Principles

Steps of Quality Improvement Suggested by Philip Crosby 533

Four Ps of Quality Improvement	533
Taguchi Methodology	533
Shewhart Cycle	534
10-100-1000 Rule	534
Quality Function Deployment (QFD)	535
Meaning, Features, Methodology	
Quality Circles	535
Meaning, Objectives, Benefits, Key Factors for Success, Support Actions	
Kaizen	537
Meaning, Rules for Implementation, Traditional and Kaizen Environments : Distinction, Procedure for Implementation, Benefits, Reasons for Failure, Kaizen Costing, Kaizen Costing and Standard Costing : Distinction	
World Class Manufacturing (WCM)	539
5s Concept	540
Concept, Meaning of Terms, Factors for Success, Benefits	
Six Sigma	541
Meaning, Characteristics of Six Sigma and Its Assets, Methodologies of Six Sigma, DMAIC, DMADV, Factors Leading to Successful Implementation of Six Sigma	
Statistical Control Charts	543
European Foundation for Quality Management (EFQM)	544
Theory Questions	546
Practical Problems	547

Chapter 22 Project Life Cycle Costing

Life Cycle Costing (LCC) of a Project : Meaning	557
Elements of Life Cycle Costs	557
Information Required for LCC	558
Categories of Life Cycle Costs	558
Initial Costs, Operating Costs, Disposal Costs	
Hidden Cost in Life Cycle	559
LCC Process	559
Cost Management in Life Cycle	559
Practical Applications of LCC	560
Benefits of LCC	561
Technology Life Cycle (TLC)	563
Industry Life Cycle	563
Terotechnology	564
Entrepreneurial Engineering	565
Theory Questions	566
Practical Problems	566

Chapter 23 Product Life Cycle Costing

Product Life Cycle Costing (PLC) : Meaning	580
Characteristics of PLC	580
Essential Features of PLC	580

Uses of PLC 581

Phases of PLC 581

Introduction Phase, Growth Phase, Maturity Phase, Decline Phase

Activities in PLC 583

Cost Associated With Different Stages of PLC 583

Cost Control and PLC 583

Marketing Strategies of PLC 584

Strategic Implications of PLC, Marketing Strategies During PLC, Strategies at Maturity Stage of PLC, Reasons for Short PLC, Extension of PLC, Irregularity of PLC, Turning Point Indices in PLC, Information Required to Study PLC, Integration of PLC with Other Business Portfolio Models, Importance of Product Life Cycle Costing

Experience Curve In PLC Costing 588

Economic Value Added to Customer (EVC) 589

Theory Questions 589

Practical Problems 589

Chapter 24 **Balanced Score Card**

Balanced Score Card (BSC) : Meaning 597

Four Perspectives of BSC 597

Customers, Internal Business Processes, Learning and Growth, Financial

Stages in Developing BSC 599

Information Required Under BSC 599

BSC and Improvement of Strategic Performance 599

Performance Measures in BSC 600

Benefits and Limitations of BSC 600

Theory Questions 601

Practical Problems 601

Chapter 25 **Business Process Outsourcing**

Business Process Outsourcing (BPO) : Meaning 605

Areas for BPO 606

Conventional Areas, Non-conventional Areas, Emerging Areas

Types of BPO 606

Contracting Out Activities, Outsourcing Services, In-sourcing, Co-sourcing, Benefit Based Relationship, Crowd Sourcing, Business Transformation Outsourcing (BTO)

Strategic Outsourcing 607

Strategic Outsourcing Models 607

Contracting and Outsourcing : Distinction 607

Outsourcing and BPO : Distinction 608

Benefits and Drawbacks of Outsourcing 608

Theory Questions 609

Chapter 26 **Benchmarking**

Benchmarking : Meaning and Prerequisites 610

Benchmarking and Industrial Espionage : Distinction 611

Process of Benchmarking 611

Types of Benchmarking 612

Merits and Demerits of Benchmarking 613

Bench Trending 614

Meaning, Steps

Theory Questions 614

Chapter 27 Value Chain Analysis

Value and Value Chain : Meaning 616

Value Chain Analysis (VCA) Concept 616

Definition and Meaning, Steps

Activities in Porter's Value Chain 617

Meaning of Porter's VCA, Primary Activities, Secondary Activities

Porters' Value Chain : Methodology and Requirements 618

Methodology, Requirements, Highlights, Competitive Advantage Through Value Chain

Benefits and Limitations of VCA 619

VCA and Traditional Management Accounting : Distinction 620

Industry Value Chain 620

Theory Questions 620

Chapter 28 Supply Chain Management

Supply Chain Management (SCM) : Meaning and Features 622

Basic Components and Basic Concepts of SCM 623

SCM Process 624

Supply Chain Activities 624

Strategic, Tactical, Operational

Benefits of SCM 625

Important Points for Making Success of SCM 625

Lean Supply Chain 626

Importance of Information Technology in SCM 626

Logistics Management 626

Production Logistics 626

Impact of SCM on Return on Assets (ROA) 627

Total Solution Contract 627

Traditional Concept, TSC Concept, Benefits

Vendor Managed Inventory (VMI) 628

Concept, Benefits

Vendor Development (VD) 629

Concept, Methodology, Strategies, Benefits

Value Chain Management (VCM) 630

Kinds of Business Partners, Meaning of VCM, Methodology, Advantages

Theory Questions 630

Chapter 29 MRP, MRP II and ERP**Materials Requirement Planning (MRP)** 632

Operating System, Information Provided, Aims, Objectives, Features, Prerequisites, Benefits

Data Requirement for MRP 634**Master Production Schedule (MPS)** 634**Bill of Materials (BOM)** 635**Inventory Status File** 635**Methodology in MRP** 635**Manufacturing Resources Planning (MRP II)** 636

Meaning, Essential Elements

Enterprise Resource Planning (ERP) 637

Meaning, Characteristics, Features, Evaluation

ERP Applications 638**Benefits of ERP** 638

Tangible Benefits, Intangible Benefits

Reasons for Failure of ERP 639**Functional Objective Search (FOS)** 639**Theory Questions** 640**Chapter 30 Management Information Systems****Management Information Systems (MIS) : Meaning and Objectives** 641

Meaning, Information Needs, Successful Factors, Objectives

Prerequisites for Designing MIS 642**Types of Decisions** 643

Programed Decisions, Non-programed Decisions

Limitations of MIS 643**Planned and Unplanned MIS** 644**Approaches in MIS** 644

Bottom-up Approach, Top-down Approach

Levels of MIS 645

Transaction Processing, Operational Level MIS, Tactical Level MIS, Strategic Level MIS

Pyramid Structure of MIS 646**Data Base Concept** 646

Meaning, Characteristics, Key Attributes

Data Based Management System (DBMS) 647

Categories of DBMS

Decision Support Packages 648**Decision Support System (DSS)** 648

Meaning, Characteristics, Applications

Executive Information System (EIS) 650

Meaning, Distinction From Other Systems, Features

Cost Management Information System (CMIS) 650**Business Performance Measurement System (BPMS)** 650

Meaning, Uses, Features

Internet 651

Intranet	651
Meaning, Advantages	
Extranet	652
World Wide Web (WWW)	652
Internet and WWW : Distinction	
Latest Concepts	652
Data Warehousing, Data Mining, Data Mapping, Data Visualization	
Pull System of Information	653
Management Accountant's Role in Information	653
Information Economics Approach	654
Desirable Properties of Management Accounting Information	655
Uncertainty and Management Accounting Information	655
Information Technology and Management Accounting Information	656
Theory Questions	656

Chapter 31 Uniform Costing and Interfirm Comparisons

Uniform Costing : Meaning and Objectives	658
Requisites for Installation of Uniform Costing	658
Uniform Cost Manual	659
Meaning, Contents	
Benefits and Limitations of Uniform Costing	660
Interfirm Comparisons	660
Meaning, Prerequisites for Implementation, Problems in Interfirm Comparisons	
Benefits and Limitations of Interfirm Comparisons	662
Theory Questions	663

Chapter 32 Cost Audit and Management Audit

Cost Audit : Meaning and Purposes	664
Objectives of Cost Audit	664
Cost Audit and Financial Audit : Distinction	665
Social Objectives of Cost Audit	666
Advantages of Cost Audit	666
Management Audit	667
Meaning, Objectives, Scope, Weaknesses Revealed	
Efficiency Audit	668
Meaning, Objectives, Parameters	
Propriety Audit	668
Meaning, Answers to Questions, Standards of Propriety	
Theory Questions	669

Chapter 33 Simulation Modelling

Meaning of Simulation	670
Monte Carlo Simulation	670
Steps in Monte Carlo Simulation	670

Methods Used in Simulation	672
Applications of Simulation	672
Advantages of Simulation	672
Limitations of Simulation	673
Hertz Simulation Model	673
Theory Questions	673
Practical Problems	674

Chapter 34 Learning Curve Theory

Operations Research	695
Meaning, Importance, Limitations, Branches	
Learning Curve	696
Concept, Phases, Factors, Graphical Presentation	
Learning Curve Table and Learning Curve Ratio	697
Applications of Learning Curve Concept	698
Limitations to Learning Curve Concept	699
Experience Curve	699
Theory Questions	700
Practical Problems	701

Chapter 35 Network Analysis (PERT & CPM)

Network Analysis	709
Meaning, Objectives, Stages in Network Analysis	
Characteristics of a Project	710
Conditions for Drawing Network Diagram	710
Program Evaluation and Review Technique (PERT)	710
Meaning, Steps, Dummy Activities, Advantages, Limitations and Assumptions	
Critical Path Method (CPM)	715
Meaning, PERT and CPM : Distinction, Steps in Drawing CPM Diagram	
Earliest and Latest Event Times	717
Kinds of Float	717
Float, Total Float, Free Float, Total Float and Free Float : Distinction, Independent Float	
Uncertain Activity Durations	719
Network Crashing	724
Theory Questions	726
Practical Problems	726

Chapter 36 Assignment Problem

Assignment problem : Meaning	737
Minimization of Objective Function : Hungarian Method	737
Unbalanced Assignment Problem	744
Maximize Objective Function	748
Theory Question	750
Practical Problems	750

Chapter 37 **Transportation Problem**

Transportation Problem	763
Meaning, Applications, Conditions	
Stages in Transportation Problem Algorithm	763
Transportation Problem Table	764
Mathematical Formulation of TP	764
North-West Corner Rule	765
Least Cost Method	767
Vogel's Approximation Method (VAM)	770
Methods for Finding Optimal Solution	775
Stepping Stone Method	775
Modified Distribution Method (MODI)	779
Degeneracy in Transportation Problem	792
Theory Questions	796

Chapter 38 **Linear Programming**

Linear Programming : Meaning	797
Practical Applications of LP	797
Application of LP in Accounting and Finance	798
Assumptions and Conditions of LP	799
Steps in LP	800
Constraints in LP	800
Limitations of LP	800
Standard Form of LP	800
Important Terms in LP	801
Graphical Solution Method	806
Steps, Advantages and Disadvantages	
Simplex Method	815
Steps for Computation of Optimal Solution	
Big-M Method	821
Degeneracy in LP	824
Two Phase Method	827
Dual Problem	830
Post-optimal Sensitivity Analysis in LP	831
Theory Questions	833

MATHEMATICAL TABLES	835
----------------------------	-----
